LIBRARIAN'S REPORT

To the Trustees of the Kimball Public Library:

The library has been opened each Monday from 12 to 5 and Friday from 12 to 1 o'clock in the afternoon during the school year, each Saturday from 2 to 5 in the afternoon from 7 to 9 in the evening.

The number of books given out during the year has been 2,134 and the largest number in one day 57.

The children have been given much thought and consideration for sometime when selecting books and it is gratifying to note the response they have made particularly this past year.

The noon hour on Monday and Friday has proven to be a very popular one with the school children.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Atkinson:

It is with pleasure that I present my annual report as Superintendent of your schools.

The Statistical Report is for the school year ending June 30, 1937. This report is followed by the reports of the Music Supervisor and the School Nurse.

The School District has rented a room at the Academy Building which the Trustees have enlarged and improved so as to give splendid accommodations. This room houses grades which formerly attended the Grammar Building, together with the seventh and eighth grades from the Depot and Sawyer Schools. Due to the small number of children in Atkinson, and particularly at the Sawyer and Depot Schools, it was found necessary to close the Sawyer School, and transport the children in grades one to six, to the Depot School.

Since the teacher is the most important single factor in the school life of the pupil, it is important that she shall have a natural endowment of ability and a personality which will insure good behavior and a happy school atmosphere. These characteristics must be supplemented by special training and experience, and by an open-minded desire to keep professionally abreast of the times. Summer school or extension courses are necessary at intervals to provide new and modern points of view. Such work is at present required in a number of school districts. Extensive travel is usually credited as a form of improvement worthy of recognition.

The enrollment in the elementary schools for the year covered by this report was 72, showing a decrease of four since the

year previous. The enrollment at the Academy was twenty-two, one less than the previous year. The school attendance averaged 95.17% of the membership, as compared with the state average of 94.74%.

Seven boys and girls graduated from the eighth grade last June. Of this number, six have entered a high school this year. The following list shows the September enrollment of Atkinson pupils in High Schools:

Atkinson Academy	17 pupils
Woodbury High School	3 pupils
Vilas High School	1 pupil

Total Atkinson pupils enrolled in High Schools	21 pupils
---	-----------

In a general way the work of the schools is being continued much the same as in former years. The fundamentals are stressed and tests have been given annually to check on school progress. We have tried to make the school centers of happy activity in which the children are growing in knowledge and character.

The Red Cross has furnished funds which has made it possible to provide clothing for needy children. It is hoped that some organization in town will be willing to sponsor a Dental Clinic in the near future, preferable this Spring.

For some time a study has been made of report cards. The reports sent home in elementary grades, previous to last fall, gave only the rank achieved in the various subjects. This year the report is made up of two parts. It is intended to furnish more information to parents than was given on the older card. The new card not only gives the marks in the subjects which the child is studying but also gives a report on the habits and attitudes most important in the elementary grades. Special atten-

tion is given to school citizenship, health and work habits, and shows the adjustment of a pupil or the lack of it, to the school program. The card calls attention to character traits, and we believe will help teacher, parents and children in building character. It is also hoped and expected that it will be a means to cause the home and school to work together more on matters of concern to both.

A radio was purchased last fall with funds earned by the children through an entertainment. This radio is being used in the two schools which are equipped with electricity. Lessons in Geography, Literature, Science, and Music Appreciation are available each week for grades 1-8. About an hour per week is used for this purpose, and it is proving both interesting and helpful.

Visual education, through the Motion Picture Machine, is being provided for children at school quite generally at present. Until recently, the cost of buying or renting films made it difficult for small school systems to have this facility. But, now the number of free educational films available is great enough to warrant the investment in a machine, at least by the Supervisory District. I hope that this can be done soon.

Every school system has a number of children that do not learn to read satisfactorily from the regular reading instruction. Such children are greatly handicapped in doing school work which involves reading, and either progress slowly in History, Geography, and Arithmetic, and they fail entirely. Dr. Durell of Boston University, and others, have demonstrated that special remedial reading work can do much for such children. To do so it is necessary to discover the reason for the reading difficulty and then give remedial work. The reasons for reading difficulty vary with individuals and this means an individual study of each child.

Reading difficulty very often has an unfortunate effect on character development, since it prevents the child from succeeding as a member of his group and getting satisfaction from the work. As a result, he may develop any one or more of the serious character defects. In the past little has been done for such children. But these recent studies have made it possible for teachers of reading to acquire ability to assist non-readers. We are starting this work and feel optimistic that we shall be able to help many of these non-readers. A series of tests has been devised to help find the reason for the pupil's difficulty. These tests will be used in our schools this Spring.

I am grateful to the teacher, parents, and the School Board for their interest and cooperation during the past school year.

Respectfully submitted,

WILLIAM J. NELSON,

Superintendent of Schools.

REPORT OF SUPERVISOR OF MUSIC

Eva W. Thompson, Music Supervisor

To the Superintendent of Schools:

I have the honor to submit my annual report as Supervisor of Music in the Atkinson Schools.

The progress which has been made in Music Education during the past year, has been made possible by the keen enthusiasm and splendid co-operation of the teachers and students.

In the primary grades beautiful rote songs supply the inspiration for a valuable experience which serves as a foundation for further musical progress. These songs induce a love of music, develop a good singing tone and prepare for music reading. With the beginning of two-part singing in the fourth grade, a true sense of harmony is developed. Still richer harmony is experienced through the three and four-part songs in the upper grades.

The Folk Festival presented in November was well received by the audience, a success financially, and of real educational value to the boys and girls, in that they learned many of the characteristic songs and dances. I might say that folk-songs are unique in that they are the natural product of innate musical feeling, without benefit of the composer's genius. Every country has its literature of folk music, individual in melodic and rhythmic characteristics, strongly suggestive of the racial temperament of the nation which produced it.

The students of the Academy presented the Gilbert and Sullivan operetta "Pinafore," in April before an audience that was generously appreciative of the young people's efforts.

For your hearty co-operation and that of the teachers, I am most grateful.

Respectfully submitted,

EVA W. THOMPSON.
